1. **Introduction**

Please read this document before submitting any information, as this will help you understand the process of logging into the Provider Portal, updating your records and submitting your headcount and supplementary claims correctly.

The Provider Portal has been developed to make the submission of information to Lancashire County Council more secure and convenient.

This document contains user guidance to help you access the Provider Portal, submit details of your childcare service to the Family Information Service and submit Early Education Funding claims for all eligible children if registered for this.

For assistance with any issues accessing or using the Provider Portal please contact us by email on FEE234@lancashire.gov.uk quoting your name, the setting/child minder name, the Ofsted Registration number, and brief details of what the issue is, and we will respond.

1a. **Early Education Funding (EEF) general rules**

- You cannot claim more than 15 Funded/Expanded hours per week/570 hours per year.
- You cannot claim more than 15 Extended hours per week/570 hours per year.
- No session can be longer than 10 hours per day.
- There is no minimum session length (subject to the requirements of registration on the Ofsted Early Years Register).
- No session can be delivered before 6.00am or after 8.00pm.
- Children can only claim EEF across a maximum of two sites in a single day.
- Government funding is intended to cover the cost to deliver 15 or 30 hours a week of EEF high quality, flexible childcare places. It is not intended to cover the cost of meals, consumables, additional hours, or additional services.
- You can charge for meals and snacks as part of the EEF entitlement place and charge for consumables such as nappies or sun cream and for services such as trips and musical tuition. Parents should therefore expect to pay for these, although these charges cannot be a condition of accessing a place. Where Parents are unable or unwilling to pay for meals and consumables, you are responsible for setting your own policy on how to respond, with options including waiving or reducing the cost of meals and snacks or allowing Parents to supply their own meals. You should be particularly mindful of the impact of additional charges on the most disadvantaged Parents.
- You cannot charge Parents “top-up” fees (the difference between your usual fee and the funding you receive from the Local Authority to deliver EEF places) or require Parents to pay a registration fee as a condition of taking up their child’s EEF place.
- You must ensure you show the funded hours at a £0 charge on the Parent’s invoice before any charges for additional hours/services are made.
- You must retain evidence of the child’s Date of Birth, for example, a copy of the birth certificate or passport.
- You must have a signed Parental Agreement in place for the term(s) you are claiming EEF.
- You must have attendance records that reflect the actual hours of attendance that you are claiming for.
- Headcount/census date is always a Thursday. As some child attendance patterns do not include a Thursday, we have extended this to headcount/census week, being the Monday to Sunday including the headcount/census date. Therefore, any child present or planned present the week of headcount/census day should be included in your headcount claim. Also ensure that the Present During Census box is ticked.

- If a 2-year-old is eligible for the funded/expanded 15 hours they must have received a LCC Golden Ticket Letter containing their unique EY voucher code or a Working Families valid
Eligibility Code. You must obtain a copy of the letter/valid eligibility code before you offer a 2-year-old funded place. **You cannot claim funding** until you have seen a copy of the letter/checked the validity of the code as you will be required to enter the code via the Provider Portal when you make the claim. **You cannot include** any 2-year-old children in your claim without a valid code.

- If a 2-year-old child is eligible for the 'funded' 15 hours before the start of the current term but delays their start date to part way through a term then you can only claim pro rata for the remainder of the term.
- If a 2-year-old child only becomes eligible for the working families 'expanded' 15 hours part way through the current term, you can only claim for the child from the start of the following term.
- If a 3 or 4-year-old is eligible for the 'funded' 15 hours before the start of the current term but delays their start date to part way through a term then you can only claim pro rata for the remainder of the term.
- If a 3 or 4-year-old child only becomes eligible for the working families 'extended' 15 hours part way through the current term, you can only claim for the child from the start of the following term.

1b. EEF term dates

EEF term dates **do not** match school term dates and are the same dates each year.

1c. Maximum weeks/hours allowed per term/year

The maximum number of weeks/hours each child can claim in a term/year is detailed below:

<table>
<thead>
<tr>

</tr>
<tr>

<td>1140</td>
</tr>
</tbody>
</table>

**Important note:** If a child claims their full 15/30 hours per week you will not be able to claim funding for every week in the term, as there are more calendar weeks in a term than there are funded weeks. The number of weeks in the term is defaulted to the termly maximum i.e. 14, 11 or 13, therefore, you **must** update the number of hours to ensure you do not claim more hours than the termly maximum allowed. However, you can choose to 'stretch' the funding and claim less hours per week over more than 38 weeks of the year.
1d. Stretching the entitlement
It is possible to stretch the EEF funding over the academic year by claiming less than the maximum 15 Funded or the 15 Extended/Expanded hours per week. If this is the case, please note:

- If the total 'stretched' hours for the academic year are still equal to the maximum number of funded hours allowed in the term/year, it is easier for you to enter this on your headcount claim as the standard number of weeks and hours for that term, for example, if a parent claims the full 570 funded hours and 570 extended hours over 51 weeks of the year, which equates to 22.35 hours actual attendance per week, claim the standard hours in each term, for example, in the Spring term you would claim 11 weeks and 15 funded hours and the same for the extended hours. This will avoid any rounding issues.
- If the total 'stretched hours' for the academic year are less than the full entitlement, you need to divide the total hours the child is attending in the academic year by 38 (i.e. as the Provider Portal does not allow you to claim for more than 38 weeks in an academic year. For example: if a child attends 10hrs a week over 52 weeks of the year, you would claim 13.68 hrs in each termly headcount (i.e. child attends 10hrs per week over 52 weeks = 520 hrs in total, divided by 38 weeks = 13.68hrs per week in the termly headcount claim).
- Hours can only be stretched over an academic year (1 September to the following 31 August), if a child starts part way through the academic year or only qualifies to claim the entitlement part way through the academic year they will only be able to claim pro-rata using the funding still available for the remainder of the academic year. i.e. if a child starts on the 1 January or only becomes eligible to claim the funding from 1 January, they will only be able to claim for Spring = 165 hours and Summer 195 hours. And the same if a child only starts 1 April or only becomes eligible to claim the funding from the 1 April, they will only be able to claim the funding for the Summer term = 195 hours.

1e. Banking the entitlement
Where a parent is taking less than their annual entitlement it is possible to bank the EEF funding. If this is the case, please note:

- You cannot assume that the parent will want to bank hours, so these must be agreed with the parent, at the outset, which term the parent would like to use their banked hours.
- Where a parent is unsure if they will need to bank any hours to be used later, you may decide to claim the additional hours as and when needed on an ad hoc basis via the supplementary process rather than having to repay the funding.
- For all banked hours used you must also keep a record of the actual dates that these have been taken, for audit purposes.
- If at the end of the academic year the parent has not used all the hours that have been banked, you must notify the local authority so that these can be re-paid.

1f. Early Years Pupil Premium (EYPP)
Eligibility for EYPP is based on the following criteria:

- Universal Credit with a household income of less than £7,400 a year (after tax and not including any benefits you get)
- Income-Based Jobseekers' Allowance - Jobseeker's Allowance
- Income-Related Employment and Support Allowance - Employment and Support Allowance
- Child Tax Credit, not entitled to Working Tax Credit and household income less than £16,190
- Support under part VI of the Immigration and Asylum Act 1999 - part six of the Immigration and Asylum Act 1999
- Guarantee element of State Pension Credit - State Pension Credit
- Income Support
- Working Tax Credit 'run on' – the payment you receive for a further four weeks after you finish work - Working Tax Credit

Children may also get EYPP if they are looked after or have left care through:
- adoption
- special guardianship order
- a child arrangements order

1g. Claiming EYPP

EYPP is for all 9 months+ eligible children who are accessing 15 hours of Early Education Funding. Early Years providers are responsible for identifying children from low-income families who may be eligible and providers must gain the consent of parents/carers to share their information for the Local Authority to undertake an eligibility check by ensuring that a signed Parental Agreement is in place.

At the start of each term, any children that have been carried forward from the previous term who were EYPP eligible will still have an EYP indicator displayed against them in the on-line Provider Portal. For any new children that have started to access a place the local authority will undertake the EYPP checks for new children that were submitted via the on-line Provider Portal by the specified deadlines.

All the information required for us to undertake an EYPP check is recorded on the parent/carer tab when making a claim. You will not be paid EYPP if you fail to include the required information as part of your headcount claim, as the information is automatically calculated with the headcount payment due each term.

The parent/carer information recorded in the on-line Provider Portal is uploaded by the Local Authority to the national Eligibility Checking Service (ECS) and if the information is inaccurate in anyway, it will return a 'not eligible' result.

For all 9 months+ eligible children, please ensure that you include the parent's forename, surname, date of birth, email address, contact number and NI/NASS number when you submit claim.
• If the consent button has not been ticked the information is not included in the upload to ECS, and settings may therefore miss out on funding if they fail to tick the consent button.

1h. EYPP for Child Looked After (CLA) / Adoption / Special Guardianship Order (SGO)

• We will check our records for any CLA children within Lancashire and note them as such. However, after headcount payment, if you have not been funded for a child you believe to be a CLA within Lancashire, please send a secure email to fee234@lancashire.gov.uk advising of the child's name, address, date of birth, along with the Social Worker's name and contact details in order for us to validate the claim.

• Any CLA that you are including on your headcount submission, that are not under the jurisdiction of Lancashire County Council, will require written confirmation from the owning Authority that the child is a CLA within their Authority. The owning Authority is to email confirmation to fee234@lancashire.gov.uk before the headcount closure date. If we have not received written confirmation from the owning Authority before headcount closure date, you will not receive EYPP payment for the child in that term.

• For Adoption or Special Guardianship children you must email the evidence of eligibility to fee234@lancashire.gov.uk before the headcount closure date e.g. copy of adoption order/SGO. Failure to do so will cause delay in your payment being processed as we will be unable to validate your claim.

1i. How do I know which children qualify for EYPP?

Once we have completed the EYPP checks the provider portal will be updated. On the 'Actuals' tab you will be able to view which children qualify for EYPP by looking under the Child Weighting column.

The EYPP will also show on the child's record on their summary tab.
Disability Access Funding (DAF)

DAF is available for eligible 9months+ children who receive Disability Living Allowance (DLA) and are accessing an Early Education Funded childcare place. Four-year-old children who are in primary reception classes are not eligible for the funding.

Parents are required to 'nominate' the provider they want the funding to be paid to. The funding is a yearly one-off lump sum payment and is not transferable if the child moves to a different provider. Subsequent providers will not receive any funding if the DAF has already been paid within the last 12 months.

Claiming DAF

To claim DAF you must apply via email and send a copy of child's most recent DLA award letter and completed Parental Agreement or DAF application form to fee234@lancashire.gov.uk. Once we have processed the DAF application you will receive a letter confirming the outcome.

If eligible you will be required to select 'yes' in the Nominated for DAF box on the Funding Details tab when making your claim. Note: Please ensure you do not nominate any children as DAF on your claim unless you have received written confirmation from us to confirm the child is eligible for DAF. If settings nominate children as DAF, who have not been confirmed eligible, we must manually update the record which is time consuming and could create delays to your final balancing payments.

System Requirements

To use the Provider Portal, you want to be using Microsoft Edge as you may find that when you click the 'Edit' link on a child's record nothing happens, and you cannot enter the details of each child. The solution to this is use a different browser such as Mozilla Firefox, Google Chrome™.

You may also encounter display issues when using a tablet or mobile phone to complete your claims. Usually these can be resolved by scrolling across the browser window to see if any pop-up boxes are preventing you continuing with your claim. If you are struggling to view the portal on your mobile / tablet device please log out and use a computer to complete your claim.
2. **Provider Portal Accounts**

2.a **Requesting a user account**

Ofsted will notify us of when a registration becomes active, and we will issue you log in details for the provider portal. If you would like to register your childcare setting for Early Education Funding, please contact us at FEE234@lancashire.gov.uk.

2b. **Requesting additional user accounts**

If you require additional user accounts then the authorised signatory of the funding agreement must email to fee234@lancashire.gov.uk to request an account. Please include the full name, email address, the role of the person you wish to add an account for and what access they require i.e. access to forms, funding etc. Please note: If users have access to forms and funding they will be able to submit headcount or supplementary claims and update provider and bank details forms.

3a. Setting a new password
First time users of the Provider Portal will be prompted to change their password after logging in. Log in with the username and password you have been given. Once you have clicked 'Sign In' you will then see the following message. Please see the password standards section above for password requirements.

Type in and confirm your new password and click the change password button.

3b. Authentication questions
Following set up of your new password you will also need to set your 'Authentication Questions' as detailed below.

'Authentication Questions' are in place to help protect the information you enter on the Provider Portal. This is like many websites such as online banking whereby you create an answer to a question, and you will then be asked for random letters from the answer each time you access the Funding section of the Provider Portal.
To create authentication question answers please click on the 'Authentication Questions' tab.

First highlight the authentication question you wish to amend ie. What is the setting manager's surname (provider).

- Click on 'What is the setting manager's surname'
- In the old answer box type the word **answer**
- Type your new answer in the new answer box
- Confirm your new answer in the confirm new answer box
- Click save

Once you have saved your new answer you should get a message to confirm the new answer has been saved successfully. Repeat the process for the second question which is 'What is your favourite colour?'

- Click on 'What is your favourite colour'
- In the old answer box type the word **answer**
- Type your new answer in the new answer box
- Confirm your new answer in the confirm new answer box
- Click save

Once you have saved your new answer you should get a message to confirm the new answer has been saved successfully.

If you need to change the authentication questions in the future then the answers you will use will be those you set up when first accessing the provider portal.
Please note:

- You will not be able to type your new answer until you have highlighted the authentication question you wish to amend.
- Your new answers need to be at least 4 letters or more.
- If there is still an * against any question, this means that the authentication question has not yet been set.

Once all the questions have been answered, click on the 'Modules' link at the top left-hand side of the screen and then click on 'Childcare / Service Provider to go back to the home screen of the provider portal.

For future logins, every time you click on the 'Funding' tab at the top of the page, you will be asked for random letters from one of the two authentication questions you will need to enter the relevant letters of the answers you created when you first logged in to set up the authentication questions.

Once you have clicked submit, you will then be able to access all the Provider Portal pages until you log out.

4. Navigating around the Provider Portal

To navigate around the Provider Portal you will need to click on the headings which are located on the tool bar. Each time you log into the Provider Portal you will be taken straight to the home page.

From here you can go straight to the section you require. On the tool bar there are three tabs: Home, Forms and Funding. Please Note: if you cannot see the forms or funding tabs please contact us on FEE234@lancashire.gov.uk so we can update your account access.
4a. Home tab
On the **Home tab** you will see all important messages relating to the provider portal / funding. If you have any notifications regarding your headcount claims, such as un-submitted claims, these will also be displayed on the home page as below. You will need to resolve any warning notifications, otherwise you may miss out on funding.

When viewing the information in each of these tabs you will need to select the relevant year and team from the menu on the left-hand side.
In the Summary tab – This is where you can view the term length, i.e. number of funded weeks and your provider rate along with the funded and extended/expanded hours for the term, worked out as a monetary value, any child weighting, for example, EYPP and if the claim has been processed and the date the claim was processed. In the Adjustments tab – This is where you can enter and view supplementary claims and any other adjustments that have been made, e.g. overclaims. Please note: we can only open the provider portal for supplementary claims once all headcount claims have been processed. You will not be able to make any supplementary claims until the provider portal has been opened by us. We email providers each term to inform them of the supplementary claims process and deadlines.

In Eligibility Checker tab – This is where you need to Validate the Working Families eligibility codes for children who are in receipt of the extended/expanded hours. You must validate all Working Families eligibility codes to ensure they are valid for the term you wish to claim funding for.

5. Working Families Codes

Parents can apply for a Working Families eligibility code 16 weeks before their child becomes age eligible however they can only start accessing the extended/expanded hours from the term after the child reaches the eligible age.

Where a parent/carer is issued with their eligibility code after the beginning of term their child became age eligible, they will not be able to take up the extended/expanded hours until the start of the next term. You must therefore check that the Working Families eligibility code 'Validity Start' date is before the start of the term in which you are to claim extended/expanded hours for. The table below shows when children can access a place from and when their code must be issued by.

<table>
<thead>
<tr>
<th>Child reaches relevant age of eligibility between..</th>
<th>They can access a place from...</th>
<th>Code must be issued by...</th>

</tbody>

It is the parent's responsibility to ensure codes are renewed in time otherwise they may miss out on funding. We also conduct grace period audits twice a term to let you know of any children who have fallen into their grace period and need their code renewing. Parents will be notified of their end date when applying for a code and they should also receive reminders from the Childcare Service to renew their codes. If codes are not applied for / renewed in line with the dates below, we will be unable to fund for the extended/expanded hours unless the grace period applies.
Important Note Regarding Grace Periods:

- If a parent does not re-confirm their details by the code end date, they automatically fall into the grace period.
- Where a parent falls into the grace period, the extended/expanded funding can be claimed up until the grace period end date, providing the parent was accessing the extended/expanded hours at your setting in the previous term.
- Where a parent was not accessing the extended/expanded hours at your setting in the previous term, and the child is in their grace period you will be unable to claim for the extended/expanded hours i.e. The code end date is before the start of the term you want to claim for, but the grace period end date is after the start of the term you want to claim for.
- Parents cannot change settings once they have fallen into the grace period, but their code will still be valid until the end of the grace period with the setting that claimed the extended/expanded hours in the previous term.

5a. Validating working Family codes

If you are claiming the extended/expanded hours for any children, you are required to validate their 11-digit code every time the parent applies or renews their code. If you are not claiming any extended/expanded hours, then there is no requirement for you to validate the extended/expanded 15 hours eligibility code.

To validate an eligibility code, you must complete all fields marked with an * and then click submit. The mandatory details required are:

- Eligibility code
- Child date of birth
- Parent/carer NI number
- Consent for eligibility check
You will then see a message box which will either confirm that the eligibility code is valid or that the eligibility code is not valid for the extended/expanded hours. You will need to make a note of the result along with the eligibility code start date, end date and grace period end date and check the dates are valid for the term you wish to claim funding for.

If you receive an eligibility code that returns a result of not eligible, please check that all the details have been input correctly, for example, the parent's details you have input relate to the parent who requested the voucher code via the Childcare Choices website and that the name is spelt correctly, the child's date of birth is correct, and the eligibility code is correct.

For a code to be valid you must ensure that:

- It is the term after the child has reached the relevant age of eligibility.
- The Voucher Start Date is before the first day of the term you wish to claim funding for.
- The Voucher End Date is on or after the first day of the term you wish to claim funding for.

Please note: If the code has been found but is not valid in the term your are apply for you will see the following message:

5b. Grace period audits
Each term the Local Authority will undertake 2 audits of the Working Family eligibility codes to identify any children who may have fallen into their grace period. All providers will be emailed once the audits have been completed and they will be required to log into the provider portal to check to see if they have any children who have fallen into their grace period.

To view the results of the audit, go to funding, actuals and select the funding type for the current term i.e. 3 & 4 Year Old Funding or 2 Year Old Funding.

If you have any children who have fallen into the grace period, the yellow warning triangle will be displayed at the top of the page.
To view which children have fallen into the grace period look down the list of your children on the headcount and you will see the yellow warning triangle against each child that is now in the grace period. Further details are included in the Eligibility Status column.

Where a child has fallen into their grace period **you must** notify the parents and explain that as they have now fallen into the grace period, their funding for the extended/expanded hours will cease on the grace period end date, unless the code is renewed. Parents will need to log back on to their Gateway Account to renew their code. If the code is not renewed in time, the child may miss out on the extended/expanded hours.

If parents believe they are still eligible, or if their circumstances change before the end of the noted grace period, please advise them to log back onto their Gateway Account to re-confirm their information. You will also need to agree how long you are prepared to hold the place open for the next term (in case the parent becomes eligible again) or whether the parent wishes to pay for the additional hours over and above their universal entitlement.

For parents to take up a place in the next term, they need to have a valid code issued before the end of the previous term. Deadlines to apply/renew the Working Family codes are as follows:

- 31 August
- 31 March
- 31 December

**5c. 2-Year-Old working family codes**

Where the parents have fallen into the grace period and the family are no longer eligible for the Working Families entitlements, they may qualify for a funded 2-year-old place under the low income/disadvantaged families’ criteria (i.e. LCC Golden Ticker EY Voucher code). You should therefore encourage parents to apply via [Funded childcare for 2 year olds - Lancashire County Council](http://www.lancashire.gov.uk) to see if they are eligible, and if so obtain a Golden Ticket code.
6. Estimates

Each term we will invite all providers to submit a revised estimate for the next term's interim payment.

Please note:

- If you do not wish to claim for any children please ensure you submit zero hours estimate otherwise you will be overpaid.
- If you did not submit an actual Headcount in the previous term and fail to submit an online estimate for the new term unfortunately we will not be able to make an interim payment.

6a. Submitting your estimates

The estimated number of funded hours for the new term will already be completed, based on the actuals claimed in the previous term, if you made a claim. If no claim was made or this is your 1st claim the estimates box will be blank. When submitting your estimates you need to enter the total number of hours you are claiming for the term for each of the different funding types (i.e. under 2's, 2 year olds and 3&4 year olds).

Enter or update the number of hours and click 'Send Claim'. You will then see a green banner with a tick saying, 'submission successful'.

If you need to amend your estimates after submitting them, providing the portal is still open for estimate submissions you will be able to adjust your estimate and resubmit the details to us.
Please note: Once the provider portal is closed for estimate submissions, we are unable to amend your hours. The updated estimates will only show in your portal once we have imported all submissions.

7. Headcount claims

You will not be able to make a headcount claim until the Provider Portal is open for submissions. All registered EEF providers will receive an email from fee234@lancashire.gov.uk to advise when the Provider Portal is open for headcount claims. Please ensure you read this email as it contains essential information about the children you can claim for and what the submission deadlines are. Before making a claim please check:

✓ The child is eligible for a funded place.
✓ You have seen proof of the child’s date of birth (this must be kept on file)
✓ A signed parental agreement is in place - If you do not have a signed Parental Agreement in place, you do not have consent from the parent to make a claim, therefore, you are unable to make a claim for that child.
✓ You have a copy of the 2-year-old Golden Ticket Lancashire letter containing the child's EY Voucher code (2-year old eligible children only)
✓ You have validated the Working Family eligibility code, and their code is valid for the term i.e. code start date is before the start of term (all eligible children).

7a. Completing your headcount claims

Click on the 'Funding' tab on the main menu to enter the Funding section of the Provider Portal.
Select the correct characters in answer to your security question and then click the submit button.

Click on the 'Actuals' tab on the 2nd toolbar.
Select the academic year, then the term you are submitting your claim for and then you will see the funding types available to you.

Please Note - if you cannot see the funding tabs please contact us on FEE234@lancashire.gov.uk
The actuals submission dates will be shown and if the Headcount is open you will see a green icon and the Funding Type will have a pencil icon next to it. If there is a red 'no entry' icon, this means the Headcount is closed and can only be viewed.

- Click on the funding type you wish to complete your headcount for. You will then be shown a pre-populated list of children that have been carried forward from the previous term headcount who are age eligible for the current term. Please note: if you claimed for a new child in the previous term via the supplementary process after we carried forward the term, the child's record will have not been carried forward and therefore you will need to add them to your list of children.

From this screen you will be able to manage your headcount claim as you will need to:

- 'Add' new child records to your headcount submission.
- 'Edit' actual attendance hours and weeks for your existing child records.
- 'Delete' any child records that are no longer required i.e. where the child has left your setting.

Each time you 'Edit', 'Add' or 'Delete' the details of a child record it will be saved in the Provider Portal and you will be able to revisit and make further changes at any time before the end of the current headcount submission period.

To switch to the 'actuals' for another funding type i.e. from 2 year funding to 3&4 year old funding, please click on 'CHANGE' as highlighted below. This will take you back to the list of Provider Headcount Records, where you can select the relevant year, term and age range.

7b. Add a 2-year-old child

Please ensure that all mandatory fields, which are marked by a *, are completed before submission, as failure may result in a delay in your claim being processed. You must work through and complete each tab before you move onto the next tab. If you do not complete all the * fields, you will not be able to move onto another tab.

Reminder: You must have a copy of the 2-year-old Lancashire letter containing the child's EY Voucher code or a valid Working Family eligibility code before making a claim.

  Please note: If you are claiming the notice period for a child who is leaving your setting / claiming for a child that has started part way through the term you must ensure that you amend the number of weeks.

- **Tick the 'Present During Census' box** for all children that you are making a claim for, for example, all children that are booked in or planned present during the headcount week.

- **Tick 'Attends Two Days of More' box if the child attends two days or more.** If they do not attend 2 days, then leave this blank. Please note: If this box is not ticked when the child attends two days or more, you will not be allowed to input more than 10 funded hours per week.

Check all details are correct and amend if necessary.
Tick Nominated for DAF Yes or No radial buttons to reflect the parent's authority for you to claim DAF as per the Parental Agreement. Please note: You can only tick 'Yes' if you have received a letter from the Local Authority confirming eligibility.

Input the Working Family Hours you are claiming per week along with the Working Parent's eligibility code, click the blue Check Eligibility Code blue button which will check the eligibility code. Please note if the eligibility code is already displayed and there is a tick in the eligible for Working Family Funding box, you do not need to click the blue Check Eligibility Code button.

If you are not claiming any working family (extended/expanded) hours you will need to enter zero.

Once you have done this you will receive a message at the top of the screen. The example below states 'The Eligibility Code has been found and eligibility for working family hours has been obtained' Please note: - You will need to have completed the Parent/Carer Details tab first for this to validate the code.

If you get the below message you will need to check that the child's date of birth, parent's national insurance number and the 11-digit eligibility code has been entered correctly.

For a code to be valid you must ensure that:

- It is the term after the child has reached the relevant age of eligibility.
- The Voucher Start Date is before the first day of the term you wish to claim funding for.
- The Voucher End Date is on or after the first day of the term you wish to claim funding for.

Please note: If the code has been found but is not valid in the term you are applying for you will see the following message:

Complete the Attendance Days by clicking the Yes or No radial button as appropriate against each day of the week.

Input the number of Non-Funded Hours per Week which are the additional hours that the parent is paying for.

The red box shows how many funded weeks are available in a term and what the maximum weekly, termly and yearly hours are. This box will change depending on your claim. If children attend 2 days or more you can claim up to the maximum of 15 hours per week, however if children don’t attend 2 days or more you can only claim 10 hours per week. –

For 2-year-old children the funded/expanded hours will then show in the Total Funded Hours per week.
• For 3 & 4-year-old children the combined extended and funded hours will then show as Total Funded Hours per Week.

• Ensure that you do not exceed the termly maximum hours per child.

On the Notes Tab

This is where you can type any notes relating to the child's claim. Any previous notes will be shown on the right-hand side.

Once you have completed all tabs, click on the 'Save' button on the bottom left. If you have any errors when trying the save your record you will get a notification that the record cannot be saved, and the errors will be listed in red at the bottom of the screen. Once you have fixed the errors listed you will be able to save the record.
Once you have successfully saved the record, you will be taken back to the actuals list. The child status will now show as Unsubmitted claim. Please double check the funded hours listed are correct as this is what will be submitted to us. If the funded hours are not correct, please go back into the child's record to edit and save the child's record.

Repeat this process for every child you wish to claim funding for who are present or planned present during the headcount week.

Once you have finished adding or editing all records, for 2-year-olds and 3 & 4-year-olds click the 'Send Claim' button.

7g. Delete a child's record
You must delete all children that no longer attend your setting.

Please note you will only be able to request to delete children when the provider portal is open for headcount submissions.

Click on the funding tab, then click on actuals and select year/term and funding type you require.

You will then be shown a pre-populated list of children that have been carried forward from the previous term headcount, who are age eligible for the current term.

Click on the 'request delete' icon (shown in the column before the status column) to remove.

To confirm the deletion request, click on the 'Yes' button.
Once you have clicked ‘Yes’ you will be returned to the list of actuals and the child’s status will have changed to ‘Awaiting LA Deletion’. Your request to remove the child’s record has been submitted to the Early Education Funding Team. The record will be removed once the team have fully processed your claim.

Repeat this process for every child you wish to delete from your headcount claim.

7h. Undo a deletion request

If you accidentally request to remove a child from your headcount claim, you can undo the request providing the portal is still open and we have not already removed the child’s record.

You will then be returned to the list of children on your headcount, where you can see that the status of the child is blank. You will then need to ‘edit’ the child record and input the hours/weeks of attendance that you are claiming for.

7i. Submitting your headcount claims

Once you have completed your headcount claim, please double check the list of actuals before sending your claim as this is what will be submitted to us. You are ready to submit your headcount return once you have:

- Added new child records and attendance hours/weeks.
- Reviewed existing children and updated their hours of attendance/weeks.
- Requested the removal of any child records which are not required.
- Completed all the relevant information, for an EYPP check to be actioned, where applicable.
Reminder: If you are claiming EYYP / DAF please ensure you have completed all the required information where applicable so that we can process your additional payments.

To submit your claim click on the 'Send Claim' button, which is located on the 'Actuals' page.

Once you have clicked on send claim, if there are any children with zero hours on your submission you will get a warning message. If you are not claiming for these children then you will need to return to your headcount delete their record.

Once submitted you will get a message at the top of screen as below, this message will only show at the top of the screen, therefore, if your list of children is long, you may not see this and you will need to scroll to the top of the page.

Once you have submitted your claim, you can view the current headcount to ensure that all children have hours showing where a claim is being made and their status has updated to one of the following.

- New, awaiting LA download (for new children)
- Awaiting LA download (children who have been edited)
- Awaiting LA deletion (deleted children)
If the Status does not show any of the above and the child hours are zero, this means that you have not submitted the record and you will need to go back into the record and edit the hours/weeks and then click the 'Send Claim' button again.

Once we have processed your headcount claim the child status will be blank.

Please note the following

- We recommend that once you have submitted your headcount claim you take a copy of your headcount claim, showing the 'submission successful' message along with printing your actual headcount claim.
- You can submit your headcount claim at any point during the headcount submission period. If you realise that you have missed a child off or made a mistake on a child’s hours/weeks, missed EYPP information or if circumstances change, you can simply re-edit the relevant child records as many times as necessary and you must then click the ‘Send Claim’ button before the end of the headcount submission period.
- Errors or omissions in your headcount claim can result in delays in processing your claims. Please ensure any queries are responded to in a timely manner.
- If you miss the headcount submission deadline totally, you will be contacted by the EEF Team to discuss. This will mean your balancing payment could be delayed.

7j. Unsubmitted records

Once you have submitted your claim, please check for any children that have a status of unsubmitted claim.

- If the provider portal is still open for headcount submissions the child status will show as unsubmitted claim. If it was your intention to submit a claim for the child you need to check your claim to ensure it is correct and then click on the send claim button.

- If the provider portal has closed for headcount submissions you will see a red exclamation mark, which when you scroll over with your mouse will display a unsubmitted claim message. You will not have the option to send the claim to us and you will need to wait until the provider portal re-opens for supplementary claims. As part of our headcount checks we do email those providers that have unsubmitted records on their headcount. Further details on what to do next will be included in the email.
Once the provider portal has reopened for supplementary claims, when you log in to the provider portal your home screen will show a notification regarding the unsubmitted claim. Click upon the term and funding type notification, you will then be asked to enter your security questions.

Once you have entered your security question, you will be taken to the unsubmitted record. As you now must submit this claim via the supplementary process you need to click on adjustments from the toolbar at the top of your screen. The status box will show unsubmitted actuals claim. As per the blue message box 'where the status indicates new unsubmitted actuals child or unsubmitted actuals claim' the edit must be undone.

To undo the claim click on the undo icon.

A pop-up box will then appear and ask you to confirm if you want to undo the pending changes for the child. Click yes to undo the changes and then you will need to enter your claim again by following the instructions on submitting supplementary claims. If you are experiencing any errors when attempting to do this, please contact the EEF team for further help.
7k. Taking a copy of your claims
We recommend you take a copy of your submitted claim once you have submitted it, so you have a record of what was submitted to us. There are several ways to take a copy of your claim.

- Printing your claim – whilst on the screen you want to print the Ctrl and P keys on your keyboard at the same time and select your printing options.

- Take a 'snip' of your claim – For this you will need to use the windows snipping tool App. To search for the snipping tool, press the windows button on your keyboard, followed by the S key. Click on the Snipping Tool App to open.

The 'Snipping Tool' box will open, click on 'New' from the taskbar and your screen will go grey. Whilst holding the left mouse button down, drag the cursor around the area you want to copy, the area will have a red box around it. When you let go of your mouse a snip of the area will appear and you can copy and paste this into a word document.

- Take a 'Print Screen' of your claim – Click on the screen you want to take a print screen off and press then Print Screen button on your keyboard. Open a word document, right click on your mouse, and click paste.

8. Supplementary claims
You will not be able to make a supplementary claim until the Provider Portal is open for submissions. All registered EEF providers will receive an email from fee234@lancashire.gov.uk to advise when the Provider Portal is open for supplementary claims. Please ensure you read this email as it contains essential information about the children you can claim for and what the submission deadlines are.

Supplementary claim should only be made for:
- Children who have started with you after the headcount week. (Providing a child has not used all their entitlement at another setting in the term).
- Children who have increased their hours of attendance since the headcount date. You can only claim the additional hours from the date the hours of attendance increased, for the remaining weeks in the term.

Before making a claim please check:
- The child is age eligible for a funded place.
- A signed parental agreement is in place - If you do not have a signed Parental Agreement in place you do not have consent from the parent to make a claim. Also, you must keep on record proof of the child's date of birth e.g. copy of birth certificate/passport.
- You have a copy of the 2-year-old golden ticket Lancashire letter containing the child's EY voucher code (Eligible 2-year-old children only).
- You have validated the Working Family eligibility code, and their code is valid for the term i.e. code start date is before the start of term (Eligible 2-year-old children only).
✓ You have validated the child's 30-hour eligibility code, and their code is valid for the term i.e. code start date is before the start of term (Eligible 3&4-year-old children only)
✓ The child has started with you, **we cannot accept** post-dated claims.
✓ If the child has been at attendance with another setting in the term and if there are any hours remaining as we will be unable to fund any additional hours if the maximum hours have been claimed.

Please note: if you are wanting to reduce the hours your setting has already claimed for a child on the headcount claim, you should contact the EEF team to discuss how to correct this.

- **Total number of Funded hours** – Enter the TOTAL number of funded hours you are making a claim for not the number of hours per week.

On the Notes Tab
This is where you can type any notes relating to the child's claim. Any previous notes will be shown on the right-hand side.

Once you have completed all tabs, click on the 'Save' button on the bottom left. Repeat this process for every child you wish to claim a supplementary for.

Once you have finished adding or editing all records, for all children click the 'Send Claim' button.

Once you submit the claim you will receive a Submission Successful message at the top of the screen and the Send Claim button will no longer be available until you click Add Child button again.

Once you have submitted your claim, you can view the current adjustments to ensure that all children have hours showing where a claim is being made and their status has updated to one of the following.

- New, awaiting LA download (for new children)
- Awaiting LA download (children who have been edited)

If the Status does not show any of the above and the child hours are zero, this means that you have not submitted the record and you will need to go back into the record and edit the hours/weeks and then click the ‘Send Claim’ button again.

Once we have processed your headcount claim the child status will be blank.
