

The LTA are delighted to share with you some exciting content on the back of a huge milestone for the Lancashire Teaching Agency (LTA).

To celebrate the 20th anniversary of the LTA, we have created an interactive digital brochure, giving you a deep dive into the LTA and what it has achieved since its inception in 2002.

The digital brochure is a great way to learn more about the LTA, from placing its first supply teacher in Burnley in 2002, to working with local authorities to improve the standard of school recruitment across the region ever since.

It provides an in-depth look at the history of the LTA, how it came into existence with Lancashire County Council, what it can do for supply staff and schools alike, as well as how it helped transform the way schools recruit high-quality teachers, supply teachers and non-classroom-based staff.

You can find more information about the evolution of teacher recruitment and read the [brochure here!](#)

Thank you for your continued support of the LTA. We hope you enjoy the brochure!
